

TICNOVA	RESPONSABILIDAD SOCIAL CORPORATIVA: "DECLARACIÓN SOBRE MINERALES EN CONFLICTO: RCOI" CMRT	Ed. Nº : 2023
		Fecha : 27/12/2023
		Pg. : 1 / 12

Listado Diciembre 2023 (RCOI):

El anexo I muestra el país de importación de los elementos usados en 2023 por **Ticnova** en su sede de Reus, Tarragona, España.

Ticnova no usa materia prima proveniente de Fundiciones o Refinerías propias. Usamos mayoritariamente proveedores europeos los cuales a su vez usan proveedores externos a U.E.

En cumplimiento del **Reglamento (UE) 2017/821 del 17 de mayo de 2017**, **Ticnova** provee el Anexo I para indicar la procedencia de los elementos suministrados por sus proveedores, así como la política pública de estos y cómo esta es declarada (documento o url). A su vez el anexo I muestra si los minerales de conflicto usados provienen de algún país conflictivo o zonas de alto riesgo.

Ticnova provee el anexo II para indicar la procedencia de los minerales en conflicto presentes en los componentes de sus productos e indicar el nombre de las refinerías y donde están ubicadas. Para ello Ticnova requiere de sus proveedores un RCOI o bien un CMRT. El anexo II muestra pues refinerías en comunes y no comunes usadas por los proveedores.

Los suministradores de los productos de **Ticnova**, mantienen custodia de la cadena de suministros y todos ellos declaran que sus productos están libres de minerales provenientes de países en conflicto.

Cadena de suministro de materiales

Ver Anexo I:

Ver Anexo II:

TICNOVA	RESPONSABILIDAD SOCIAL CORPORATIVA: "DECLARACIÓN SOBRE MINERALES EN CONFLICTO: RCOI" CMRT	Ed. Nº : 2023
		Fecha : 27/12/2023
		Pg. : 2 / 12

Listing December 2023 (RCOI):

The following list shows the country of importation of the elements used in 2023 by Ticonova at its headquarters in Reus, Tarragona, Spain.

Ticonova does not use raw materials from own foundries or refineries. We mainly use European suppliers which in turn use suppliers external to E.U.

Pursuant to Regulation (EU) 2017/821 of May 17, 2017, **Ticonova** provides Annex I to indicate the origin of the elements supplied by its suppliers, as well as the public policy of these and how it is declared (document or url).). At the same time Annex I shows if the conflict minerals used come from a conflictive country or high risk areas.

Ticonova provides Annex II to indicate the origin of the minerals in conflict present in the components of its products and indicate the name of the refineries and where they are located. For this, Ticonova requires an RCOI or a CMRT from its suppliers. Annex II therefore shows common and non-common refineries used by suppliers.

The suppliers of Ticonova products maintain custody of the supply chain and all of them declare that their products are free of minerals from conflict countries.

Material Supply Chain

Traceability of potential conflict minerals

See AnnexI:
